Warren and Greg,

The Eberline Lab is in Oak Ridge, TN. We will be shipping the samples to them first overnight today.

Thank you

Alex

Subject: Eberline Example EDD

Attached is an example EDD from Eberline with real data. This is what we can get very easily from Eberline as results become available. I'd like to figure out now, before data starts coming in, how we will map this into Scribe.

Melissa, I heard you were customizing some Scribe imports. I have not had a chance, yet, to review the draft DMP. So maybe this is already lined out. Are we going to have to make changes to the lab results table? Will I need a custom template to load data?

Subject: RE: Request for Proposal; Los Alamos, New Mexico, Update

Dear Kristie:

Attached please find an example of our LIMS generated report. This is what we will send for quick results. This is from another Weston project, I changed the sample ID's so there is no way to know where they are from. Please look over this and see what you think. The UOM is also pCi/m3, however, they take much larger volumes so don't expect to see these MDA's/

Best Regards,

Michael R. McDougall
